

DISCOVERY MAP

APPROX. 2 HOURS

Meet our flightless emus!

Found all over Australia, these large birds are instantly recognisable thanks to their size and speed. Come say hello!

Wurundjeri culture

Visit Wurundjeri Walk and learn about local Aboriginal history and culture. On Sundays you can say hello to Murrundindi, an Elder, for cultural encounters and tales.

The romantic

Did you know that swans touch beaks to kiss? When they kiss, their necks form a heart.

Flying sky high

Birds of prey have excellent eyesight, and from high in the sky they can easily spot small prey.

Scaley-central

Which is the biggest snake you can find? Which is your favourite reptile?

Splashing platypus!

These shy and hard-to-spot mammals have thick waterproof fur that helps keep them warm.

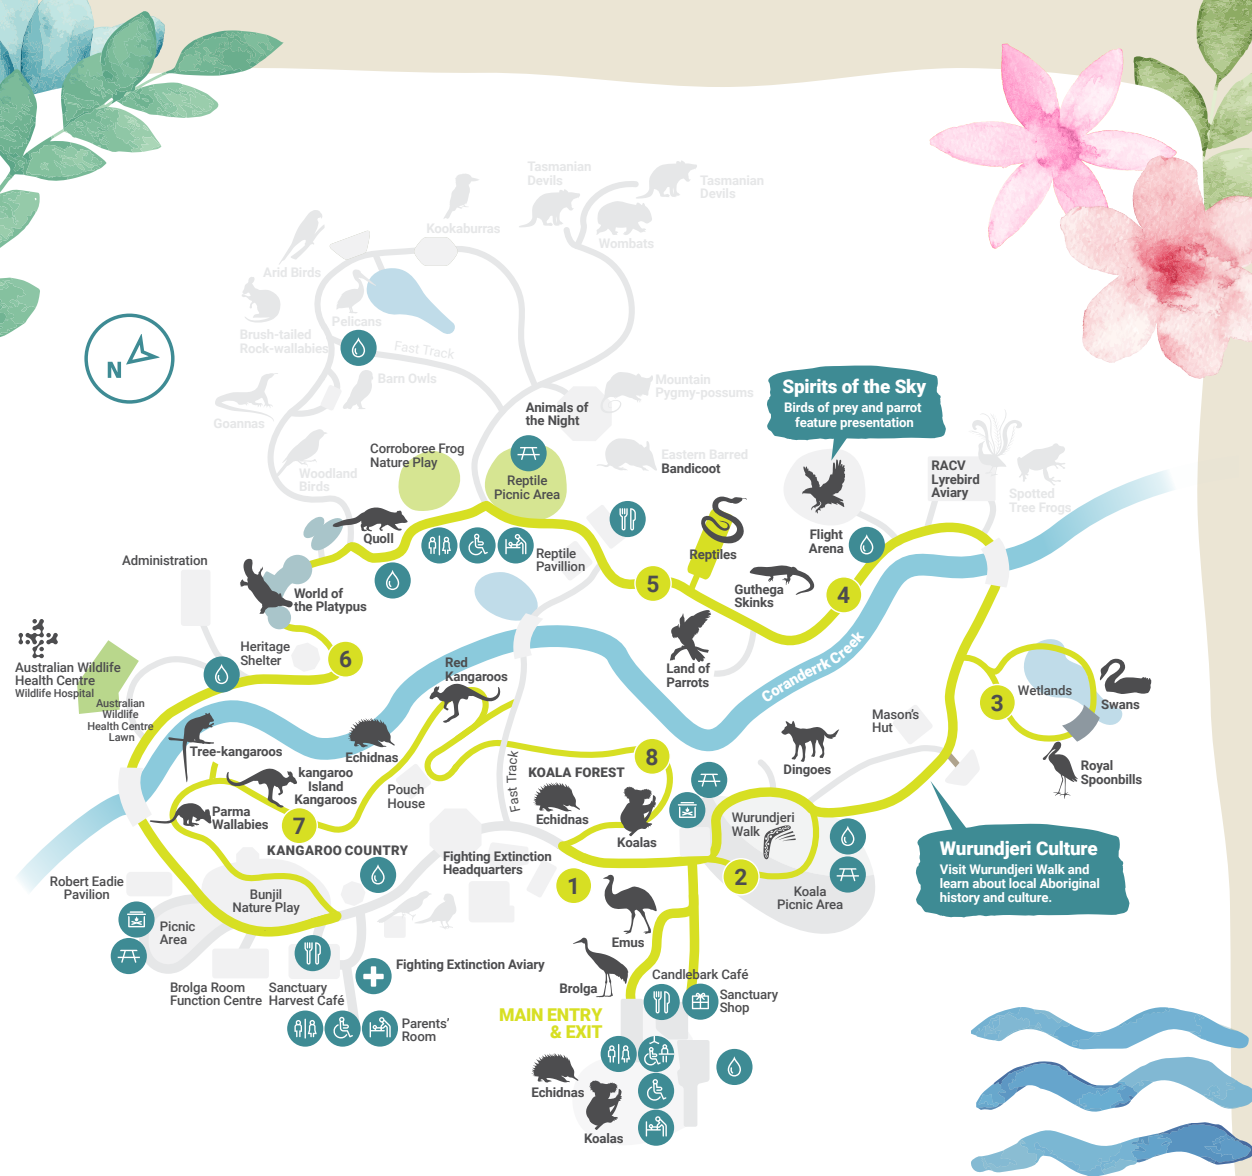

Let's hop around!

Kangaroos can take giant leaps, sometimes as far as three times their own height! How far can you jump?

Just hanging!

Koalas can eat up to one kilogram of leaves in a day. See how many you can spot.
